CINDERS AND ASHES FALLING

It is the Only Evidence Now of Vesuvius Big Eruption

DEATH LIST IS INCREASING

KING VICTOR EMMANUEL WITNESSES SAD SCENES ON HIS TOURS

Over a Hundred Corpses Taken Out of a Collapsed Church in One Village.

Naples, April 13.—Another interval of clear skies, due to a cessation of falling ashes and cinders from the volcano came during the morning to cheer people, and giving renewed hope. Reports received late yesterday indicate that the flow of lava ceased everywhere and the streams which rolled down the mountain sides were cooling. This news caused general satisfaction. Once assured that the eruption is over it is believed people will take hope and work with vigor to restore things to their normal condition and rebuild their homes.

Relief and rescue work is being pushed with all possible vigor. As the stricken towns are partially cleared, additional corpses are found showing that the death toll, if ever compiled, will be greater than at first supposed. The death list is still added to daily, as persons in Vesuvian villages are dying of laryngitis and suffocation from poisonous gasses from the volcano. King Victor Emmanuel and Queen Helena this morning visited stricken persons in the hospitals at Naples, and then started for another tour of the villages. In his tours, the king has seen some awful sights. At Ottaviano, where a church collapsed several days ago, 132 bodies were recovered from the ruins during the time the king was in town.

A silent grumble and a desultory fire of fine dust and ashes is now the extent of Vesuvius' activity.

An official bulletin gives the details of a dispatch from Prof. Matteucci, in which the scientist declares he is certain there will be no further eruption of a serious nature at this time. His examinations have disclosed the fact that the falling in of the crater served to choke the chimney of the volcano and cut off its activity. The rapidly cooling lava is serving to cement the natural dam which is holding back the subterranean fires.

It is predicted that the volcano will continue to smoke for months, and Matteucci declares there is no immediate relief in sight from the dust and ashes which are likely to be thrown up for some time.

The work of rescue and restoration is going forward with remarkable speed.

Naples and the entire stricken district are in the hands of the military and under the personal leadership and direction of the king. Order is rapidly being restored. The government has rushed to the rescue with funds and food and clothing are being rushed to the stricken districts as fast as the still crippled lines of communication will permit. The houses are being cleared of sand and ashes and the streets are being opened so that traffic can be resumed.

While the work of caring for the needy injured goes on the task of seeking out and burying the dead is also being pushed. Every report tends to indicate that there was no exaggeration of the number of victims and that the list of dead will total close to 2,000.

Two hundred and fifty thousand persons it is now estimated have been rendered penniless and fully 5,000 homes have been destroyed. Half a dozen villages have been completely buried by sand, ashes and lava that they will have to be abandoned.

Late reports show that 1,000 houses have been destroyed in Torre del Greco, 200 houses have fallen in Ponticelli, in San Giovanni and Iduone, 200 buildings have been destroyed and the number reported as having been demolished in Resina is 450.

The king, visiting Ottaviano, was forced to proceed on horseback. His horse stumbled through four feet of ashes, blinded by showers of cinders, while falling rocks endangered the life of the king.

Pope Plus, who chafes under the restriction that keep him from ministering to the sufferers, has ordered the priests to distribute food and rai-

ment to the refugees, and to call on him when their funds are exhausted, was prying open the cover of the huge crate with his trunk and tusks. The pope has made a personal donation of \$2,500,000 lire to the relief fund. Beside this the government has given \$100,000 and two donations of \$20,000 from the king. \$200,000 has been raised by popular subscription all over Italy. Committees headed by the Duke of Asti are distributing these funds. An incident occurred at Torre Annunziata when the authorities ordered the closing of a church believed to be unsafe. The troops promptly restored the order. At Boscotrecase, thieves during the morning entered the homes of some of the better class of inhabitants on the outskirts of town and stripped them of valuables. Many people are convinced that the cessation of the eruptions was a miracle performed by the image of Saint Genora.

Inferno Raged in Ship's Hold

When Nine Elephants Broke Their Bonds During Storm and Nearly Stampeded Other Animals.

New York, April 13.—Trumpeting elephants and roaring tigers, mingling their hideous noises with the screeching of nearly a thousand monkeys, set terror into the hearts of the steerage passengers of the North German Lloyd steamer Seiditz, in port Thursday from Bremen, when the ship was tossed about in a northwestern Sunday night, below the banks and about 1,000 miles from New York harbor. The nine elephants that were included in the animal cargo of the Seiditz broke their bonds, and roamed about the lower hold among the cages holding the tigers, leopards and monkeys, causing pandemonium among all the beasts and giving the keepers hard work for two hours, while the ship rolled and pitched in the sea, trying to get the pachyderms back in their pens.

The steerage quarters were immediately above those of the animals, and there was little sleep among the 1,800 third-class passengers while the gale lasted and the animals kept up their din. The tigers made frantic efforts to get out of their cages, and the 150 anacondas, confined in boxes were nearly liberated by one of the

MADLY IN LOVE WITH MAUDE ADAMS

MISS MAUDE ADAMS

New York, April 13.—Morris Gottlieb is madly in love with Maude Adams, the foppish swain, as a sequel, is being treated in Bellevue as an insane person.

For seventeen weeks Morris has stood in the wings of the Empire theater watching his goddess enthralled with her performance in "Peter Pan." He looked after the as everybody else have fallen under his spell, or rather helped to, and it her charms. Of course, she is kind to him, while doing so that his love for everybody. She is a queen among the actress took deep root, until last woman. At the time I was "bog Friday he could stand it no longer, house I had the thought in my mind knowing the infamy of his insanity, that, as much as I am an honest and teasing might do his god-mom, I had the right to lay siege to do some harm, he walked into her heart and win her if I could. I Bellvue Hospital and asked to be written her letters, but she never replied.

RECOVER ZION BY A MIRACLE

Is the Promise Made by Deposed Prophet's Adherents

SETS TIME FOR NEXT SUNDAY

CONFERENCE HELD THURSDAY NIGHT BY BOTH SIDES TO DISPUTE

While No Definite Plans Were Formulated It Is Said Dowie Will Now Fight.

Chicago, April 13.—That the recovery of Zion by Dowie depends upon a "miracle" was made known today. Half the population of Zion City, is said today, had been informed through Dowie's "underground railway" methods to wait a great "miracle" which was soon to be manifested. Good Friday or Easter Sunday were set as the days upon which the miracle would take form. This morning there was great excitement in Zion City. Scores of Zionites came into Chicago last night and returned by the latest trains. They kept their identity a secret.

Dowie's activities, it was said today, will be confined to those necessary to the most important things only, because of Good Friday. Conferences were held last night between Attorney Jacob Newman for Zion City, Judge V. V. Barnes of Zion's legal department, and attorneys P. C. Haley and Emil C. Wetten, for Dowie. There was no definite plan decided upon for a settlement. To add to Dowie's trouble, the postmaster at Zion City, who is a strong Volva supporter, started today to scan the mail matter addressed to John Alexander Dowie with the view of determining what is business and what is personal matters. All letters held back by the Zion City postmaster will be retained by him until he receives a ruling on the subject from the department at Washington.

Meantime the followers of the Volvan wing at Zion City are quietly engaged in assuring each other that Dowie's threat to carry the war through to a successful conclusion in the courts is nothing but a "game of bravado" and that he must retreat from the field or starve, because the offer of his successor to provide a living for him away from Zion City will not hold good forever.

Overseer Piper came to Chicago from the seat of ecclesiastical power early today and proposed to enter upon another day of discussing with Emil C. Wetten, one of Dowie's lawyers. Piper is regarded as a "go-between." Dowie keeps busy at his suite in the Auditorium Annex. He awoke early this morning and at 7 o'clock was up with breakfast. Almost his first act was to send a telegram to his followers in Buffalo, N. Y., where according to a dispatch the dock has declared its allegiance to him.

Dowie's message was:

"I thank the brethren in Buffalo for their expression of confidence and loyalty. I send them my blessings and love. Me and all with me will pray throughout the day that their meeting will be a great success and a blessing to come."

Dowie insisted that he is feeling better and stronger today and more inclined to put up a strong fight. Meanwhile the law is continuing to discuss "ways and means."

WESTERN TRIP

Is Being Planned by President—Invitations from Several Cities Arrived.

Washington, April 13.—It was stated at the White House that President Roosevelt has taken up the question of a trip thru the west during the spring or summer of 1907, although as yet he has made any positive arrangements at fact has not reached any positive conclusions. The information is that he is very likely to make such a tour. He has received a number of invitations from institutions and cities throughout the west to visit them, all of which he has replied that he will take them under consideration. He expects to reach a conclusion before a great while.

Attorney C. P. Hale made the following statement: "We have advanced and will advance only one condition—complete restoration of power, temporal as well as ecclesiastical, and a demand for an absolute retraction of the blasphemous statements made by General Overseer Volva and Deacon Alexander Granger. Dowie revoked Volva's power of attorney two days before this transfer was made."

Indiana Republicans nominated Fred Sims of Frankfort for secretary of state.

SOLDIER WHO TESTIFIED IN PATRICK CASE

Alexander B. Stanberry
Corporal 13th Inf. U.S.A.

Washington, April 13.—Corporal Alexander B. Stanberry, who came from said, although he did not show clearly the Philippines that he might testify in what he had done for the "line of Dowie in favor of a new trial for Albert T. Battle," as he outlined it in one of his letters to a man whom he wanted to know, that he did so. He did not appear to the best advantage under the cross-examination of District Attorney Jerome.

He was surprised when Mr. Jerome showed to him letters written by himself, proving that before the trial of

Dowell he had come to this city to aid the heirs, who are trying to break the will made by William M.

Rice in 1896, in which he left much of his fortune to the Rice Institute. At

that time Stanberry was in consultation with the lawyers for these heirs

destroy them after they were read.

In its uniform of khaki and wearing his overcoat Stanberry took the witness stand and there showed a disposition to deny the authorship of the letters. He could not remember some of them; parts of them he admitted he wrote, other parts he disowned, but usually after much questioning he admitted they were his.

The feature of the senate's session was Mr. Foraker's speech on the house railroad rate bill, which he held to be unconstitutional. He was interrupted frequently by the members.

Mr. Foraker eulogized the Elkins law as most helpful to shippers, saying that it covered all railroad evils except excessive rates. Mr. Doliver made the point that experience had not shown that the Elkins law had been very generally invoked, and in fact Mr. Foraker cited the Wichita case, alleging discrimination. Mr. Foraker admitted that the law had defects, the most important of which was the failure to provide a remedy against exorbitant rates. For that matter, however, he had not heard any complaints on the score of rates until very recently. So far as he had heard, the difficulty had been with rebates and discriminations, and these he declared were quite fully covered by the Elkins law.

Mr. Foraker discussed court review

amendments of the pending bill, saying that the courts were open to complaints of extortionate rates on one hand and confiscatory rates on the other, but that between the two there were a wide range and that there should be an opportunity for a judicial review in this class of cases.

Taking up the thread of his discourse, Mr. Foraker urged that the omissions of the house bill were due, as Mr. Doliver had said, to the general confidence in the Elkins act. He said that one reason why there have not been more complaints was found in the expense to shippers, very few of whom were willing to go to law with a railroad as an antagonist. He proposed that the government should assume the expense of the proceeding on behalf of the shipper.

In reply to Mr. Bacon he said that when a case gets before a court it will become necessary to go into the entire case. He would have a broad review.

"Does the senator mean that in the end the courts instead of the commission would in effect fix rates?" asked Mr. Bacon, and Mr. Foraker denied that such was his purpose. The only question that a court could decide would be as to whether a given rate was just and reasonable.

Bellville, O., April 13.—Prosecutor Glenn finished his argument in the Ben Dickerson case here this afternoon at 4 o'clock. Judge Eason immediately delivered his charge to the jury, consuming some little time.

The case was delayed somewhat this morning by the adjourning of the court immediately after it convened,

to give Judge Eason an opportunity to prepare some important papers bearing on the case.

Prosecutor Glenn stated to the Advocate correspondent this afternoon that he expected a verdict of guilty of the charge contained in the indictment within an hour after the jury retired. An immense crowd has filled the court room during the entire day.

Ben Dickerson's son, Lloyd Dickerson, who was also one of the important witnesses in the famous case, was married last night to Miss Linda Rulley, a young woman living near him.

Lloyd Dickerson is but 19 years old and his bride two years his junior.

Green and Gaynor Get Four Years

Evian, April 13.—Mrs. Maria Green Allen died Thursday noon in her 70th year, having been born at Princeton, N. J., October 24, 1841. She was in chronic health up to the past year, and in full possession of her faculties. Mrs. Allen had been a resident of this city since 1853 and was the mother of seven children, one of whom was Captain Richard Allen, whose piano is borne by the local post of the G. A. R. She was the oldest member of the Women's Relief Corps.

The defendants may be relieved of the fine by making an oath that they are possessed of no more than \$500.

The defendants were convicted of embezzlement in connection with the Savannah harbor improvements. The naval officer's death.

Washington, April 13.—Captain Jameson on Komodoo, U. S. N. S., of Albany, N. Y., who has been commanding the armored cruiser Colorado, in Cuban waters some time, died Thursday at Guantanamo, of appendicitis.

FORAKER'S VIEW OF RATE BILL

Ohio Senator Contends That House Measure is Not Constitutional

MADE EXHAUSTIVE ADDRESS

URGES BROAD COURT REVIEW OF COMMISSION'S FINDINGS

Frequently Interrupted by Colleagues
---Popular Elections Favored by House.

Washington, April 13.—A resolution providing for the election of senators by direct vote of the people was favorably acted on by the house committee on election of president, vice president and representatives in congress. The resolution, which was introduced by Mr. Norris of Nebraska, makes the terms of members of the house four years instead of two. Both propositions are to be accomplished by amendments to the constitution.

The feature of the senate's session was Mr. Foraker's speech on the house railroad rate bill, which he held to be unconstitutional. He was interrupted frequently by the members.

Mr. Foraker eulogized the Elkins law as most helpful to shippers, saying that it covered all railroad evils except excessive rates. A resolution has been offered in Congress to make the term of members of the house four years instead of two. This would be a most sensible change. For an ambitious man to aspire to go to Congress for a term of two years is a delusion and a snare.

A morning paper's headlined state that "Naples still feels the wrath of Vesuvius." What grievance Vesuvius has against Naples is a mystery the average inhabitant of the western hemisphere is not quite capable of comprehending.

King Victor Emmanuel of Italy has been recklessly exposing himself to the dangers of the Vesuvius eruption in a chivalric effort to console the distracted peasants. But one of the women sufferers struck a hard if unmitting blow at royal prestige when she said: "If thou be king, bid the volcano to cease." What's the use of royalty if it is as impotent as common folks in the face of great convulsions of nature?

Nearly every nation in the world is in debt to an extent that, compared with its income, would be deemed dangerous in a private concern. And the pity of it is that these huge oppressive national debts have been accumulated almost wholly through war instead of for the public welfare. In spite of the lessons of the centuries war is still almost as fashionable as ever. Some people thinks it helps business. And this is excuse enough.

One by one the most cherished beliefs are being shattered. Dr. Wiley, the government food expert, has put

RHEUMATISM

CHRONIC CASE CURED AFTER EIGHTEEN YEARS—TREATMENT REPORTED BY

DR. L. J. MIZER,
Canton, Ohio.

Patient.—Mr. W. C. B., age 48, was a robust individual, suffering from uric acid poisoning which had resulted in chronic rheumatism of 18 years standing. During recent years the uric acid had given rise to a heart affection—myocarditis.

Patient had been entirely unable to work during 12 years, and was in a condition of utter helplessness.

Treatment.—had the ankle massaged as thoroughly as the pain would permit and wrapped in dry hot flannel. Teaspoonful of LIFE PLANT given after each meal—the dose gradually being increased to two teaspoonsfuls. Lax Root tablets were given to keep the bowels open. Two weeks of this treatment showed marked improvement.

At the end of five weeks the patient walked to my office and after six months steady use of LIFE PLANT the rheumatism and heart trouble had entirely given way because of the elimination of their common cause—uric acid.

Signed. L. J. MIZER, M. D., Canton, Ohio.

This is one of many long standing cases of chronic rheumatism and heart trouble that the leading physicians have cured by the use of LIFE PLANT.

Full directions for the use of LIFE PLANT—free medical advice and valuable booklet telling of thousands of its cures will be sent to anyone writing to the LIFE PLANT COMPANY, Canton, Ohio. Write NOW before you lay this paper down and forget it.

IN THE PINE WOODS

A Noted Specialist and His Camp for Consumptives.

CRITICS OF GRAFT NOT HYSTERICAL

Says Lincoln Steffens in an Interview at Toledo on Civic Betterment.

In the pine forests of Maine, in the northeastern quarter, Dr. Leach, a famous specialist in consumption and kidney troubles, has a camp in the deep pine woods. With the oil of the white pine trees he is effecting cures that are attracting the attention of the world, and are so certain that a relapse is almost unknown. Patients so ill that they had to be carried into the pine woods on a litter have come out in a few months completely cured.

A well known local physician who is familiar with Dr. Leach's treatment says it is just as efficient in the home of the patient as it is in the pine woods.

It has a peculiar healing power over affections of the throat, lungs and bronchial tubes, will break up a cold in twenty-four hours and will cure any cough that is curable.

The treatment is very simple, consisting of the Pure Virgin Oil of Pine mixed with Whisky and Glycerine in the following proportions:

Virgin Oil of Pine (Pure) .1-2 ounce

Glycerine 2 ounces

Shake well and use in teaspoonful doses every four hours.

The ingredients can be secured from any good prescription druggist at small cost.

Inquiry at the prescription department of one of the leading druggists elicited the information that the Pure Virgin Oil of Pine is put up only in one-half ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved wrapper showing the name—"Virgin Oil of Pine (Pure)" plainly printed thereon. Only the cheaper oils are sold in bulk, but these create nausea and never effect the desired results.

IN MUSIC'S REALM

It is with considerable interest and satisfaction that the music loving people of Newark and Granville watch the development of the musical spirit of the season, which is especially shown in the grand success of the combined festivals of this year. This season, of the seven numbers in the combined festival, not one could be in any sense considered a failure or a partial failure.

Could the efforts of the different numbers be criticized? To an extent, yes, but where and when was there ever an absolutely perfect rendition of every number of any program or series of programs according to the minds of all? As for severe criticism of the effort, it would be out of the question, for considering everything, the earnest work of Prof. Judson, who for no pecuniary compensation, has combined his already successful efforts with those of the other earnest individuals who are interested in the artistic welfare of the locality, deserves unbounded praise and duly commands the compliment which is paid to the Newark and Granville talent by the success of the first and second musical festivals ever attempted. In reality, it is the first for this city and the second for Granville, although it practically counts for the same.

One year ago the greatest possible effort was required to begin the "musical awakening" of Newark. Hard, earnest work was required and undiminished energy, which fortunately, Prof. Judson possesses. After considerable hard work the interest was aroused to the extent that a festival was partly assured of success. It was given, and the result is well known. Even now the movements for next year's festival are under way, and the prospects for a large orchestra are very bright.

The success of the venture is gratifying in the extreme, and now that the interest in things musical is started in the right direction and in the proper manner, the movement is assured of being a permanent one.

Two Fires.

Thomasville, Ga., April 13.—The famous resort hotel called the Piney Woods was burned to the ground. Incendiaries or flying sparks fired the tenth portion of the town, known as Sandy Bottom, just as the Piney Woods fire was under control. Three blocks of small stores were swept away. The hotel loss is estimated at \$65,000. Other losses estimated at \$25,000. It is stated that only \$12,000 insurance was carried on the hotel.

Inspired Murder of Others.

Constantinople, April 13.—Inquiry into the murder of Redjan Pasha, former prefect of Constantinople, who was assassinated March 24, has resulted in a report that Shamil Pasha and Abdur Rezak Bedev had inspired the murder of others besides Beyan Pasha, including the ministers of war and public works. The government proposes to bring them from exile and justice if they shall be sentenced to death.

DAY'S BUSINESS IN COURT HOUSE

In the case of Emmanuel Benoy vs. the Village of Hartford, being an action brought to restrain the cutting down of certain locust trees in the village park, the Circuit court sustained a demurrer to the petition and granted leave to amend. Kibler & Montgomery; Leammon, Fitzgibbon.

Ellen Thomas vs. George Stineon et al, an action brought to reform a deed and to fix line between the farm of John M. and the farm of defendant near Alexandria. Finding and decree fixing Bates Trout line as western boundary 9 feet west of center of south portion of hedge. Stasel, Hunter & Hunter; Swartz, Kibler & Montgomery.

Edward M. Burt vs. C. S. Owens, judgment of Common Pleas court affirmed. The suit was brought to recover consideration money paid and money expended for expenses in the purchase of a patent cement fence post. Owens claimed that Burt and Noah W. Reid represented that they were the owners of letters patent and induced Owens to purchase an undivided interest, and that Owens should have the exclusive right to manufacture and sell cement fence posts of a certain kind in Nebraska. Owens claimed that the post patented was not as it was understood when the right to sell it in Nebraska was purchased, and asked for the consideration money. The jury thought the amount ought to be paid back, and the Circuit court has affirmed that finding. Smythe & Smythe for Burt and Reid; Kibler & Montgomery and Judge Swartz for Owens.

Common Pleas Court.

In the Common Pleas court in the case of Lavinia Wilkins vs. John C. Snider the court found that the petition stated a cause of action, and overruled a demurrer to the same. The plaintiff says that she was occupying a house, under lease; that the defendant removed the roof to make repairs and when it rained the plaintiff got wet and became sick, and asks for damages. Smythe & Smythe; Kibler & Montgomery.

Probate Court.

Alva Dixon, a small lad aged 13 years, was brought before the Probate court on the charge of being an habitual truant and a disorderly juvenile person. He pleaded guilty to the charge, and as a number of witnesses fully established the fact, the court ordered him sent to Boys' Industrial school at Lancaster, and he was placed in the custody of the sheriff.

The Probate judge has three cases for hearing tomorrow morning, one at 8 o'clock, one at 10 and one at 11.

George A. Parker has been appointed administrator of the estate of his son, Ernest Guy Parker, who was crushed to death by the cars a few days ago. Bond \$2,000.

An inquest of inanity was held by the Probate court on Mary E. Foster of McKean township on Friday morning. The woman is 48 years old and is the mother of ten children. She is suffering from a mild form of mania, and has religious delusions. The testimony of quite a number of witnesses was taken and she was adjudged insane. She was taken over to Columbus and turned over to the officials of the State Hospital.

OBITUARY

SMITH-WRIGHT.

Mr. Hubert C. Smith and Miss Carrie L. Wright were united in marriage on Thursday, April 12, at the parsonage of the First Congregational church. The ceremony was performed by the Rev. Thomas H. Warner. Mr. and Mrs. Smith are estimable young people and their many friends wish them a happy and prosperous future. They will make their home in Newark.

SCOTT-LUSBY.

Pataskala, April 13—On January last Charles Scott, son of Mr. and Mrs. D. W. Scott of Pataskala, and Miss Edna Lusby of Zanesville, unknown to any of their friends, fled themselves away to Kentucky and were married. The secret was kept until a week or so ago, when they began arrangements to go to housekeeping on Fourth street, Newark. Mr. Scott is a telegraph operator employed at Welant, four miles east of Newark.

Tug Night at the Palace tonight.

CARD OF THANKS.

We desire to extend our heartfelt thanks to our friends and neighbors who contributed help and sympathy in the death of our daughter and sister, and to the B. & O. employees and all others for the beautiful flowers offered. Mr. and Mrs. J. D. Foster and Family.

WHY

Newark People Should Take Vinol.

Our well known druggist, Mr. Frank D. Hall, says: "We do not believe there is man, woman or child in Newark whom our famous cod liver oil preparation, Vinol, will not benefit at this season of the year."

We believe there is no need for so many people to drag around run-down, tired out and debilitated, or for old people to remain weak and infirm, when we guarantee Vinol will restore health and strength."

Continued Mr. Hall: "For centuries cod liver oil has been recognized as the grandest of all body-building agents for wasted human strength and vitality, but on account of the heavy, nauseating and system-clogging oil which enveloped its curative properties few could take it with any benefit."

In Vinol you get in a concentrated form every one of the curative and strength-creating elements of cod liver oil actually taken from fresh cod's livers, and without a drop of oil to upset the stomach and retard its work."

Vinol is not a patent medicine, and you know what you are taking, as everything it contains is named on the back label of every bottle.

Vinol is guaranteed by over two thousand of the leading druggists of the United States to create strength for old people, for the run-down, tired, and debilitated, weak, sickly women and children, and after a severe sickness.

We ask every person in Newark who have hacking coughs, chronic colds, throat and bronchial troubles, to try Vinol on our guarantee. It costs nothing if it fails." Frank D. Hall, Druggist.

Mr. K. M. Captain Whittle and others in which they reviewed the incidents of soldier life, such as wading streams, skirmishing, burning wagon trains and narrow escapes.

Mr. D. E. Camp, whose father was a gallant soldier in the Civil war, and who is an elocutionist of considerable ability, then gave several selections which captured the audience. Among them were "Old Man and Jim," "How Hans Took Santiago," and "His Mother's Song."

The remainder of the evening was passed in having a good social time. The younger people must have been full of fun for they did not care a cent how many stories were related by the old comrades. All had a splendid time and were unanimous in the expression that the affair was one of the most enjoyable ever had by the Post.

Hit by Lightning.

Kansas City, April 12—Lightning struck feed barn No. 2 at the stock yards, setting fire to the structure. As a result one fireman lost his life, a spectator was seriously hurt and the building was destroyed. Arthur W. Pendleton, the fireman, was caught under falling walls, Joseph Monahan, while watching the fire, fell off a ladder and was injured internally.

Manufactures of Texas.

Washington, April 13.—A substantial increase in the manufacturers of Texas is shown in a preliminary summary of statistics issued by the census bureau for 1904. The number of establishments was 3,558, against 3,107 in 1900. Capital invested \$115,664,871, and total value of products \$150,528,389, an increase of 62 per cent over 1900.

Crisis in Servia.

Vienna, April 13—Belgrade telegrams give official denial to the statement that King Peter intends to abdicate. The denial, however, does not counteract the general belief that a serious Servian crisis is brewing. April 26 is named as the day on which the king will be deposed and ex-pelled unless he abdicates.

Flywheel Burst.

McKeesport, Pa., April 13.—With a report like a cannon a 10-ton flywheel, 24 feet in diameter, burst in the National rolling mill here, and wrecked the entire mill and its machinery. Two hundred men were at work, but escaped injury. This is the third accident of the kind in the mill in 18 months.

The borough of Malden, England, has decided to levy a special tax, the proceeds to be devoted to the advertising of the town's local attractions.

Drunkards Cured in 24 Hours.

Let no woman despair. The sure, quick, permanent cure for drunkenness has been found.

It is Golden Specific. It has no odor. It has no taste. Just a little is put in the drunkard's cup of coffee or tea, or in his food. He will never notice it, he will be cured before he realizes it, and he will never know why he abandoned the taste for liquor.

MRS. RUTH ARMENTROUT.

Mrs. Ruth ArmentROUT, aged 58 years, died Thursday evening at 9:45 at her home on Sixteenth street. The deceased leaves on son, Simeon Jones of Hanover, four sisters, Mrs. Bay of Homer, Mrs. Battee of New Way, and Mrs. Rinehard and Mrs. Gregory of Columbus. The funeral will be conducted by Rev. L. C. Sparks at 1:30 Saturday afternoon. The interment will be made in Maple Grove cemetery at Granville.

FIREBUG'S SUICIDE

Columbus Grove, O., April 13—Clarence Frank a self-confessed firebug, frustrated the plans to place him under arrest at Leipsic Junction this morning, by blowing off the top of his head with a shot gun. Death was instantaneous. It was claimed that Frank had his furniture insured for \$500, the real value being \$200, and sought to burn it to recover the face value of the policy. He leaves a wife and several children.

CAMP FIRE AND BEAN SUPPER

Given on Thursday Night by the Members of Lemert Post, No. 7, G. A. R.

The camp fire and bean supper given by the members of Lemert Post, No. 7, G. A. R., at G. A. R. hall on Thursday night was one of the most enjoyable occasions of the kind ever held in the city. The meeting was open to all old soldiers, their wives and families, and there was a large attendance.

The bean supper which had been prepared by that old veteran, Comrade William Bostwick, was gotten up after the style used in the war, and was a rare treat to all who were so fortunate as to be present. Coffee was also served.

At the conclusion of the feast Post Commander R. C. Bigbee called the assemblage to order and announced that speeches were in order. Short but interesting speeches were made by Rev. J. C. Schindel, Colonel Charles

LIVE NEWS OF BUCKEYE STATE

CINCINNATI—STUDENTS LOST IN DEBATE AT WASHINGTON LAST NIGHT.

Jesse Mills Weary of Life—Popular Song Writer Dies—Obituary Removed From Office.

Washington, April 12—The first annual debate between the George Washington university and the University of Cincinnati was held here at the Belasco theater. It resulted in a victory for the local debaters, who upheld the affirmative. Representative Champ Clark of Missouri presided and introduced the speakers. The subject was: "Resolved, that the effect of capitalistic combinations called trusts is detrimental to the interests of the wage-earning classes."

Bridge Company's Allegations.

Fremont, O., April 13—The Massillon Bridge company filed a motion to set aside the \$20,000 default judgments obtained in the local courts by Kay Monnette of Crawford county and K. F. Briggs of Seneca county, on the ground that no service by summons had been obtained; that the defendants were not in court at the time, and other alleged irregularities. Affidavits of bias and prejudice were also filed against Judge H. S. Buckland.

Another Withdrawal.

Lima, O., April 13—W. E. Toureille, candidate for congress from Mercer county, has withdrawn from the race. His withdrawal, following that of Goeke of Auglaize county, changes the entire political situation, and several new candidates may enter the contest before Saturday. Toureille, in a short statement to the public, thanks his friends for their support, but gives no reasons for his withdrawal.

Appointed Chief Clerk.

Columbus, O., April 13—State Highway Commissioner Sam Huston appointed Louis Alcock of Toledo chief clerk of the department. The appointee succeeds Fred Burdell, who resigned during the winter because of ill health. The place pays only \$1,000, but is an important one.

Weariness of Life.

Galion, O., April 13—Jesse Mills, 21, who came here from West Carrollton, O., with his 16-year-old wife in March, committed suicide by hanging at his barn. When the body was cut down a letter was discovered addressed to his wife, saying, "Life is nothing but sadness for me."

Wrote Popular Songs.

Fremont, O., April 13—Arthur Hartzler, said to be from a prominent Fort Wayne (Ind.) family, died here from an attack of tremens. Hartzler was a musician and composed "My Lady Love" and other popular songs. He had been playing about town for several days.

Why Olchean Was Removed.

New York, April 13—Alvin Smith of Ohio, who was removed from office as United States consul at Trinidad last October, has arrived here. The cause of his removal was his failure to render his accounts.

In Her 105th Year.

Elyria, O., April 13.—Mrs. Maria Lounds Allon died in her 105th year, having been born at Pompton, N. J., Oct. 24, 1801. She was in vigorous health up to the past year and in full possession of her faculties.

Nurse's Mistake.

Canton, O., April 13.—The mistake of a nurse cost the life of this four-days-old child, Dr. Weaver reported. The nurse gave the infant four drops of carbolic acid instead of colic medicine. The nurse is prostrated.

Governor Pattison.

Cincinnati, O., April 13.—The following bulletin was issued: "The condition of Governor Pattison continues about the same. There has been no perceptible change since the last bulletin was issued."

For Vesuvius Victims.

Columbus, O., April 13—Mayor De Witt C. Badger has appointed a committee of citizens to collect funds for the relief of volcano sufferers in Italy.

Hamilton Man Insane.

Hamilton, April 13—Clark Lane, Hamilton's principal philanthropist, who donated to the city the Lane Free Library and the Children's Home, has become insane and has been sent to an asylum at Elkhart, Ind.

Death at Adamsville.

Adamsville, April 13—H. H. Garrett of Adamsville received the sad intelligence Wednesday of the death of his daughter, Miss Margaret Garrett, aged 20, in a hospital at Columbus, after a long illness of tuberculosis. The funeral was held from the residence at 10 o'clock Friday conducted by Rev. Mr. Scott. Interment was made in the cemetery at Adamsville.

Falls Dead in a Field.

Dayton, April 13—The dead body of William Bruner, a farmer, was found in a field near his home Thursday. Bruner was engaged in sowing clover seed when he fell dead from heart disease.

Man Attempts Suicide.

Marietta, April 13—Despondent because of continued ill health and brooding over domestic troubles, M. Dye, a prominent and well known

You may have
the Beauty of
Perfect Health

The perfect woman is the woman who has perfect health. Beauty is more than skin deep. Beauty is as deep as pure blood and a perfect digestion. Especially is female beauty dependent on the perfect health of the delicate female organism.

If you wish to have the beauty and attractiveness of perfect health, if you wish your eyes to sparkle, your complexion to resume its brilliancy, and your whole body to thrill with the glow of renewed vitality, take that famous woman's medicine,

Lydia E. Pinkham's Vegetable Compound

If you have headaches, backache, organic pains, painful or irregular periods, or any female trouble, begin with Lydia E. Pinkham's Vegetable Compound at once. It will save you needless suffering. It will restore your womanly beauty.

Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound cured me of a severe and protracted case of female trouble. After the birth of my child this trouble began, but your Compound restored me to perfect health. My little girl is now six years old, and I am a perfectly well woman, and as happy as a mother could desire to be. I give the entire credit to Lydia E. Pinkham's Vegetable Compound.

Mrs. S. R. Beckman, Cor. Murphy Ave. and Whitehall St., Atlanta, Ga.

No woman, were she a Venus de Milo, could continue beautiful with a dragging down female complaint. Mrs. Pinkham invites all sick women to write to her for advice. For twenty-five years, Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge.

citizen of the county, attempted suicide Wednesday by trying to cut his throat at his home at Moss Run. The act was attempted with a dull knife, but the victim did not succeed in severing the jugular vein, and there is little hope of his recovery.

Miss Austin Dies.

Cochetown, April 13—Miss Gertrude Austin, daughter of James Conforti, died Wednesday after an illness of six weeks. She was 20 years of age. The funeral services were conducted Friday at 2 o'clock from the residence and interment will be made in South Lawn cemetery.

Little Girl Drowned in Well.

Kenton, April 13—Evaline, the 2 year old daughter of W. O. Oehler and his wife, was drowned in a cistern at their country home Thursday.

The child had been playing around the doorstep, but suddenly disappeared and after an hour's search her body was found.

Dog Prevents Serious Fire.

Bucyrus, April 13—What would have been a destructive fire was prevented by a dog at the home of Mrs. Sahl. The dog saw fire falling from a flue to the carpet and a blaze

What Makes a Good Corset

Some years ago the American woman who was particular of her Corset thought she must have a French made Corset—and probably she had to. But step by step the American Corset makers have taken and replaced the foreign corsets and from a small industry the making of corsets has progressed until today it occupies a recognized position in the great industries of this country. By using living models graceful lines are produced and a wonderful degree of comfort has been attained. These results have been attained by following the lines of the human figure. Next they aimed for durability.

Durability is built into the Corset. By the selection of and the use of good materials, the bones, the tapes, the fabrics service was implanted in the corset and the workmanship being done by competent hands the result has been that every corset of prominence today is an American Corset.

A GOOD CORSET MUST STAND FOR Grace, comfort and durability at a moderate cost. We are showing this week an exhibit from the makes of THE J. B. CORSETS, which shows the wonderful success along these lines. Built by a French importer who knows what a good corset is, it can absolutely be depended upon to please the woman who wants a comfortable corset ranging from \$1.00 to \$2.00. It is useless for us to tell a woman that the fit of her suit or dress must depend upon the fit and care of her corset. She has learned this and we want to recommend to Newark women—

THE J. B. CORSET

This is a line of well built corsets, all styles, made in prices ranging from \$1.00 to \$2.00. We think you will like them. ALL BETTER CORSETS WE FIT FREE.

where she was robbed of every cent. Utterly disengaged she pawned what few personal effects she had with her and journeyed back to Portland.

Here her mother love again ailed her heart with restless longing, and gathering together all she could she started again for Portsmouth, where she arrived yesterday. By correspondence with the local postmaster she learned that her boy was here with relatives.

Not knowing how either the child or the relatives would receive her she employed an attorney, who took her to the police court, where the boy was called in. He did not recognize his mother, but she had come prepared, and when she produced a photograph showing him on a bicycle, saying it had been given him on his fifth birthday and that he fell off it and cut his finger in two, a great flood of recollection came over him. He held up his mangled finger and rushing up to his mother he gathered her in his arms, the two weeping in their joy.

The mother was penniless, but she sat diligently to work to accumulate money to help her recover the child. In time she scraped together \$700, but just as she was ready to start for the city where she believed the boy had been carried, the funds in which the money was deposited failed and she was left with nothing.

Again she took up the years of toil and again saved a little sum. Starting for Portsmouth the expenditure for advertising in

the paper was \$125,000,000.

OUTLOOK NOW SEEMS HOPELESS

For Peace in the Anthracite Fields,
But Another Conference Held
on Friday.

New York, April 13.—While the outlook for peace in the anthracite fields seems hopeless, because of the flat rejection of the miners' modified demands, President Mitchell has hopes

today that the operators' formal reply will leave some way open for a continuance of the joint negotiations leading to an adjustment of the difficulties. The formal reply will be made to Mitchell in a letter next week. W. H. Truesdale, president of the Lackawanna, says the formal re

ply will contain nothing more than the informal reply made by George E. Baer at the conclusion of yesterday's joint meeting. The operators

all unite this morning in saying that they have gone their limit in the matter of concessions. There is little possibility of a resumption of work in the anthracite fields for some time to

come, no matter what develops.

Partition Sale of City Property.

The sheriff will sell next Sunday, April 11, from the south door of the court house, 30 acres of land in city limits, between 14th and 10th streets and Licking river, suitable for factory or garden. Appraised at \$115 per acre.

He will also sell eight orchards in Franklin Jones' Addition to Newark, appraised at \$100 each. Property must sell for two-thirds appraised value.

Germany's beer consumption has reached a record high annually. Germany is in no danger of being forced over there.

The elephants in the London zoological gardens earn \$3000 a year by carrying visitors about on their backs.

"Once," drawled Uncle Enoch, "I knew two boys who went to a lecture over in Crownville, but they didn't like it much. It was clear over their heads. So on their way home, being bound to have some fun, they stopped at the old pond down by Harkins' mill an' whisked off their evening togs an' jumped in."

"And did they enjoy that?"

"We never found out. The pond went over their heads too!"—Judge.

German women collect what are supposed to be the smallest peacock feathers in the world. They are each growing in pots about the size of a thimble.

The formal reply will be made to Mitchell in a letter next week. W. H. Truesdale, president of the Lackawanna, says the formal re

ply will contain nothing more than the informal reply made by George E. Baer at the conclusion of yesterday's joint meeting. The operators

all unite this morning in saying that they have gone their limit in the matter of concessions. There is little possibility of a resumption of work in the anthracite fields for some time to

come, no matter what develops.

**RECEPTION GIVES
AT THE Y. M. C. A.**

To the New Members Thursday Evening Was a Most Pleasant Social Event.

The reception given new members of the Y. M. C. A. in their rooms last night was without doubt the most pleasant social event of the season. The members' banquet given one year ago was greatly enjoyed by all present. But for real and unreserved pleasure the event last night was more appreciated.

Light game tables were placed in the reception room and all were soon busy. Every stranger, so far as possible, was met by a hearty handshake as he entered the room, and was made to feel at home by entering into one of the games. All the while Dally's orchestra kept the air full of music, and any who were not playing at a game were fully entertained by listening to the splendid selections.

At 8 o'clock the guests were all invited to the gymnasium, where a very good exhibition was given. As there were 150 new members somebody had to ride the goat. Floyd Whitehead was the unfortunate victim. Mr. Whitehead displayed great manhood, and rode the ferocious Googoo until the poor beast fell dead from sheer exhaustion.

The American Tanning Machine Co. furnished some fine orchestral selections while the exhibition team performed some very difficult stunts on the flying rings, horse and parallel bars.

Following the gymnastics Messrs. Frank Lewis and Frank Duncan were matched for a wrestling bout. Lewis scored the first down, Duncan scoring for the second. When time was called for the third, both boys were in it from start to finish. After 15 minutes of lively work, referee Ludwig called the match a draw.

Light refreshments of pineapple ice and cake were then served, the old members present acting as servers. Dr. Mitchell, president of the board of trustees, presided while some short toasts were given. He gave a short speech of welcome to all new members, to which Dr. W. S. Turner replied. Mr. Ebersole was then asked to speak on "What the Association Expects of New Members." He said that the first thing they were expected to do was to forget that they were "new" members, and be simply "members" with all the rest. It is expected of them also that they avail themselves of the privileges which their membership affords. All were made to feel a greater loyalty and respect for the great and world-wide brotherhood of which they were now a part.

The program was concluded by two splendid readings given by Mr. Reese, a student of Denison university. A feeling of good fellowship certainly prevailed and it is hoped that all new members or non-members, will feel that this same welcome always awaits them at the building.

Cruiser Washington's Speed.
Boston, April 13.—The armored cruiser Washington successfully completed the official speed trial with a four-hour endurance run, during which she maintained an average speed of 22.27 knots an hour. The contract speed of the Washington was 22 knots an hour. The weather and sea conditions were favorable.

AMUSEMENTS**THE CROP OF SONG WIRTERS.**

John W. Vogel, owner of Vogel's minstrels, that is to be in Newark on Wednesday evening, referred to the increased cost of minstrel organizations. "Take my first part," he said, "and nearly \$5,000 was spent before the hangings were put up. It is all rich, heavy velvets and large enough to fit any stage. Now—"

But just then a boy brought in a package, and before Mr. Vogel opened it he said, "This is Muscle," and he remarked it disgustedly. "It is remarkable," he added as he ripped open the roll, "how many musicians there are in the country, and how each one writes the best song that has ever been put on paper. I venture to say that I receive three or four a week and from all parts of the country. A man writes a song, his friends tell him it is great and he spends a hundred dollars in having it printed and then he sends a copy to theatrical managers and especially to minstrel companies. Some of them are so poor they are really good and others are not poor enough to be good; and not good enough to be poor."

BERNHARDT IN CAMILLE.

A number of Newark people will go to Columbus tomorrow evening to see Mme. Sarah Bernhardt, the great French actress, as Camille at the new Memorial Hall. The production, which has been widely advertised in Central Ohio has elicited great praise where she has appeared. The prices range from \$3 to \$1. The hall seats 3,200 people. Phone T. K. Albaugh, Columbus Board of Trade, for reserved seats.

STORMS IN KANSAS.

Tornadoes Strike a Number of Points. The Damage Done.

Wichita, Kan., April 13.—A tornado struck Stafford, Kan., resulting in injury to several persons and demolishing several houses. The storm came from the southwest. Four miles west of Stafford another tornado blew down several farm buildings and seriously injured R. F. Silvers, who sought shelter in a granary. This storm passed two miles east of Hudson, where other small damage is reported. The sun shone brightly while these storms were wreaking their havoc. Another tornado is reported at Bushton, 20 miles north of Stafford. Several residence and other buildings were blown down. Wires are down.

Outing of Tornadoes.

Topeka, Kan., April 13.—At least seven tornadoes were seen east and northeast of Great Bend, Barton county. The schoolhouse in District 82, vacant at the time, was demolished, and a threshing machine outfit destroyed. No other damage reports have come in. Some rain and hail fed.

An Appeal for Japan.

(Communicated)

As the times seem to be so good, financially, in our city, plenty of work generally, buildings of all kinds going up, even the churches talking of buildings and pipe organs, don't you think that it would be a good idea to make an appeal to the churches, Sunday schools and people generally, to make a collection for starving Japan, this blessed Easter Sunday?

Our country has been gloriously blessed. We should remember, next to England, our best friend among the nations of the world, in their time of need. Hoping that this will meet with your approval, I am,

Yours truly, W. S.

**DOUBLE TRAGEDY
AT MINNEAPOLIS**

Koenig is Dead and Mrs. Boothman is Dying as Result of Gunshot Wound.

Minneapolis, Minn., April 13.—Her- man Koenig of this city is dead and Mrs. S. E. Boothman, supposed to reside in Ironwood, Mich., is dying as the result of gunshot wounds inflicted by Koenig. Koenig entered Mrs. Boothman's apartment in a local boarding house and shot her twice in the abdomen, and then turned the revolver on himself. Koenig is 60 years of age.

**TRADE AND
IRON REVIEW**

Cleveland, O., April 13.—The Iron Trade Review notes unusual activity in pig iron during the past week. Sales have been of good volume and inquiries continue to increase, with demands on the part of melters for immediate or advanced shipments insistent. The Steel Corporation has purchased 35,000 tons of Bessemer from the association and will take any surplus available for April delivery, which will not be large. Pipe interests have contracted for 50,000 tons of southern iron and the leading producers have established \$1100 as the basis, though it is understood the price went at a lower quotation. The Westinghouse requirements, calling for about 14,000 tons, mostly of northern iron, were covered during the week, at a slight shading of current quotations. Some small lots of basic have been sold and the price is firm at \$17.

Western independent mills have settled on 1.50c plus actual freight charges as the selling price for iron bars and the confused situation in this line has been considerably cleared. Agricultural implement makers are coming into the market for next year's requirements, which on the excellent crop outlook will be heavy.

**ONLY WOMAN TO
GET B. & O. PENSION**

Mrs. Mary Bounds, of Wheeling, Has
That Distinction—In B. & O.
Service 28 Years.

After having served the B. & O. railroad for over 37 years continuously as a car cleaner at Wheeling, Mrs. Mary L. Bounds now has the distinction of being the only woman receiving a pension from the company.

With a broom and duster she started to work October 2, 1868, in the yard at Wheeling, and there she cleaned or helped to clean thousands of cars and had a chance of observing the great improvement made in passenger train equipment, from the substantially built, but plain and unpretentious coach up to the modern cars, increased in size, much more substantial in construction, and a practical revolution in interior arrangement for convenience and comfort in travel, until she was retired January 22, last. During that time she never made a single trip for pleasure and her only travel on the railroad was five trips to Weston, a distance of 109 miles from Wheeling, which she made to visit her invalid husband. She had lived in Wheeling during her entire life of over 66 years, and 30 years of that time were spent in one ward.

In the entire history of the B. & O. there have only been three women upon its pension roll. Mrs. Bounds now being the only one living. The reason that such pensioners are so rare is explained to be that women, as a rule do not look with favor upon becoming members of the railroad Relief Association, because of their natural disinclination to tell their age. Mrs. Bounds wants all to know that, during her entire service she has received the best of treatment from the officials.

Mrs. Bounds was born October 20, 1839. On January 28, 1855, she had a bit of romance by going to West Alexander and marrying James Bounds a mill worker, without telling anyone.

Foreclosure Sale of Newark Water Works.

Notice is hereby given that in pursuance of the decree of foreclosure and sale made by the Circuit court of the United States for the Southern District of Ohio, Eastern Division, in a certain cause in which The Farmers' Loan and Trust Company as Trustee is complainant, and the Newark Ohio Water Company is defendant, dated April 8th, 1906, when decree forecloses the mortgage of the Newark Ohio Water Works Company to the Farmers' Loan and Trust Company, dated April 8th, 1906, before the Master Commissioner in and by said decree provided for that purpose, will sell at public auction and without appraisement at the highest bidder thereto, at twelve o'clock noon, at the front door of the Court House of Licking County, Ohio, in the City of Newark in the State of Ohio on

THE SIXTY DAY OF MAY, 1906,

the following property, premises and franchises described in the said decree as follows:

The premises, property and franchises described in said mortgage as follows: two words "parts of the first part" and "said Water Works Company" in said description referring to "said Newark Ohio Water Works Company."

"All and singular, the water works now held, or hereafter to be constructed, acquired or held by the party of the first, situate in the city of Newark, Ohio, aforesaid, together with all and singular, the rights in, ways, and use, pump house, site, service and site, pumping engine, boiler, tools, furniture and fixtures, pipes, mains, valves, hydrants, gates and valves, the water tanks and income, rents, revenues, extensions, additions, improvements, franchises and property of every kind, and description of every kind, which it may have or hereafter may have, either of its own or acquire, together with all and singular the hereditaments and appurtenances thereto belonging, or in any way appertaining."

The said premises, property and franchises will be sold as an entirety.

No bid shall be received for sum less than \$100,000.00 and \$1000.00.

No bid will be received by any person until such person shall have deposited with the Master Commissioner the sum of Five Thousand Dollars in United States currency, or in such certified draft, certificate of check, or money order, drawn on the Master Commissioner. Such deposit will be returned to the depositor if bid not accepted, but if bid accepted, then such deposit will be held by the Master Commissioner on account of the purchase.

The purchaser, when the property is sold to him, shall at once pay to the Master Commissioner the amount of his purchase, an additional sum of Five Thousand Dollars, aggregating with the prior deposit, the sum of Ten Thousand Dollars in United States currency, or in such certified draft, certificate of check, or money order, drawn on the Master Commissioner. Should he fail to make such payment at once, the mortgaged property and premises will be re-rented the court reserving the right to consider such sale as made on account of said proposed purchaser, or as an original sale, but if he fails to do so, he shall be made to pay at once, and without further advertisement, and the deposits received from the successful bidder will be applied on account of the purchase price. Such further portions of the purchase price shall be paid in cash on the day of sale, or before the time set by the court reserving the right to sell the premises and property in and by such decree directed to be sold upon the failure of the purchaser or purchasers, his heirs or their successors or assigns, to comply within twenty days with any order of the court in that regard, to pay the amount of the purchase price in cash or in money or in bonds secured by said mortgage, each said bond being received for such sum as the bidder thereof would be entitled to receive under the distribution in and by such decree ordered. For a more detailed statement of the terms and conditions under which such sale will be made reference is hereby made to the said decree.

GRANVILLE NEWS

Granville, O., April 13.—Extensive preparations are being made for the celebration of the seventy-fifth anniversary of Denison University at commencement time in June. Judge R. E. McCann of Dayton, is chairman of a committee of the trustees on arrangements; Prof. W. H. Johnson is in charge of a general catalogue, to be the most complete ever issued by the university; Secretary A. S. Carman is in charge of the publication of a memorial volume containing the history of Deason; Mr. Robert W. Case of the board of trustees, is chairman of a committee on entertainment in connection with the celebration of the diamond anniversary.

Dr. Emory W. Hunt of Denison, has just returned from a trip to Atlanta, Georgia, where he preached the sermon at the twenty-fifth anniversary of the founding of Spelman Seminary. This is a great institution for the education of negro young women, and has received large gifts from Mr. John D. Rockefeller for whose wife (who was Miss Spelman), the institution is named.

On Tuesday evening after the rendition of Hayden's "Creation" by the chorus and soloists, Miss Blinn very charmingly entertained a number of friends in honor of the soloists, who were Miss Fernandez, Miss Hirschberg, Messrs. Chilton and Harper. Dainty refreshments were served and the occasion was a very delightful one.

The Spring Musical Festival, given by the Granville Festival Association, has proven a grand success in every way, and the music loving people of Granville are exceedingly well pleased at the outcome. The patronage accorded the festival is ample testimony of the interest our people are taking in music. Mr. Edwards, the business manager of the Cincinnati Symphony orchestra, said that Granville had more music loving people, and furnished better and larger audiences than any other college town in the state.

Denison students are in demand in the business world, and lately several of the boys have obtained good positions. Mr. Ernest Lloyd of the senior class, has accepted a position with the engineering corps of the Baltimore and Ohio Railroad company, now working on the track line between Newark and Columbus.

Frederick Browne Harrison, professor of history in Adelbert College, Cleveland, is spending his vacation in Granville, the guest of his cousin, Prof. C. B. White, and other relatives. Miss Anna Denman of Springfield, O., who has been visiting here for the past several days, has returned home.

Thomas Smith, a prominent young business man of Toledo, was in town on Thursday for a short time.

The Denison University Glee club will give a concert in the Opera House at Johnstown Saturday evening of this week.

KENYON

Will Put on Flying Colors Thursday,
April 26—Andrew Carnegie
Will be There.

Thursday, April 26, will be a gala day in the history of Kenyon college. At that time will occur the installation of the Edward M. Stanton chair of economics, founded by Andrew Carnegie, who will be the star guest of the occasion. Mr. Carnegie will be accompanied in his private car by Colonel John J. McCook of New York, of the Kenyon class of '66; Dr. Nichols Munsey Butler, president of the Columbia university; Richard Watson Gilder, editor of the Century Magazine, and James Bertram, his private secretary.

The program as arranged follows:

At 11:30 in the morning Mr. Carnegie's oration will be read by Professor George C. S. Southworth, doctor of literature at Kenyon. It will be an ode to the life of Edward M. Stanton, the war secretary during the Rebellion, for whom the chair of economics is founded. Stanton on the same theme, written especially for the occasion, will be sung by the College Glee club. At 3 o'clock in the afternoon there will be a banquet to Mr. Carnegie, to which it is said 150 guests will be invited.

Stanton was a student at Kenyon from 1831 to 1833. During the Civil war Carnegie was in the federal telegraphic service and thus came in contact with the war secretary. Just at this time Mr. Carnegie was advanced and felt that it was due to the influence of Secretary Stanton. — Mt. Vernon Independent.

The Newark Telephone company is making preparations for a very large increase in its already extensive system during the spring and summer. All the necessary material has been ordered and a large portion has already been received. The plans have been made with the end in view of taking on a thousand new subscribers. There will be an increase in the cable of over 15,000 feet, or nearly nine miles, which with the present 5,000 feet will make a total of 115,000 feet or about 22 miles. About 600 feet of this cable will be laid underground.

The company has now on its waiting list over 600 names which have been received during the past season and there is every reason to suppose that the end of the year will see this company's local company with at least 2,000 telephones in service.

At the present time there is not a single line left on the company's switchboard which has a capacity of 1,200 lines, but two new additional sections have recently been purchased and are now being placed in position to accommodate all the people who will want telephones.

The company has a large crew of men in West Newark at present putting in the new work as fast as possible and expects to have that end of the city ready for telephone subscribers not later than May 15, and the other parts of the city will be relieved of the present congested condition as fast as possible. The last of the cables should be ready to receive this new business not later than July 1.

Subscriptions for telephone are already beginning to pour in and it is doubtful if the capacity, which was thought large enough to last at least three years, will last more than a few months.

The company has also made very elaborate plans to accommodate the rural district and has in project at least a dozen additional lines in as many different directions. These lines will all be equipped with the selective lockout system which has proved so very satisfactory to the farmers. Absolute secrecy and private service have made this class of service a winner, and the new contracts coming in unsolicited have been very gratifying.

The growth of this company has been truly marvelous and at no time in the past three years has it been able to keep pace with the demand for its service.

The recent sale of its securities on the Columbus and local market has made this large increase possible, local capitalists having subscribed very heavily to the new issue of stock, thus making this increase possible and giving foreign capital a feeling of confidence in the enterprise. Many thanks are due them for their confidence in the success of this growing concern.

Manager Hollander of this company, requests all people wishing telephone to call up the company's office and give their names in order that the company's agent may call on them as soon as arrangements can be made for their accommodation.

\$2.75 PER DAY

Will be the Tax Cost of Operating Saloons Under the Aiken Law, Recently Passed.

It will cost a saloon keeper under the Aiken Law, recently passed by the General Assembly, \$2.75 per day for taxes, according to a table made out by Auditor of State Gilbert and distributed among the county auditors of the state. The law goes into effect May 28, and the table shows the rebate for each day, but under no circumstances may the taxpayer receive less than \$2.00. That is to say if he fails in paying one day, he will get his tax amount as well as one-fifth of the year.

The table shows that while on May 28 the tax will be \$1,600, a day later it will be \$997.24, May 30 it will be \$994.05, and on the 31st \$991.36. The tax decreases for any portion of the year at the rate of about \$2.75 a day. To find the rebate the auditors will subtract the amount of tax opposite the day in Gilbert's calendar following discontinuance of the saloon business, always retaining at least \$2.00 from every dealer beginning business prior to March 15, 1907.

B. & O. WRECK AT NORWICH

TWELVE CARS PILED UP BUT THE TRAIN CREW ESCAPED INJURY.

It is said that the cause of the wreck was engineer's disregard of signals.

Zanesville, O., April 13.—A disastrous wreck occurred on the B. and O. railroad east of this place shortly before noon Thursday, in which several Newark men, among them being Engineer Evans and Conductor Walters, narrowly escaped injury and the locomotive and 12 cars of a westbound freight train were rolled from the track and practically demolished at Simla (Norwich) and resulted in a great loss of property. By jumping from their posts none of the train crew was injured, but a large number of passengers assembled at the station narrowly escaped injury from flying debris. The accident is said to have been caused by Engineer Harry Evans disregarding danger signals.

The cars were utterly demolished and it was necessary to build a track around the debris in order to allow trains to go to this city. This spur of track was completed last evening about 8 o'clock and the trains, which had been detoured all day over the Pennsylvania lines from Cambridge to Zanesville, were run over the B. and O. tracks again. No one was injured in the wreck, the crew jumping before the engine left the track.

A gang of section men had been improving the tracks at Norwich and in order to place in a new track the men had removed the three rails. In order to avoid an accident two flagmen were sent out, one about a mile east of the station and the other near the station. The westbound train had been at Norwich for the past several days and in order to allow the regular freight to pass the former had been side-tracked.

Engineer Evans, thinking that the first flagman was signaling about the wreck train, and seeing this train on the siding, proceeded under a full head of steam. However he saw his mistake when he perceived the second flagman, and at once shut off the steam, realizing there was no chance to prevent the accident, and the members of the crew jumped from the train.

A large crowd of people was assembled at the station and it was almost impossible to get some of them into places of safety. Several women had to be carried out of the danger of the flying wreckage. When the train struck the gap the engine and the first two cars rolled over to the station and the other 10 cars left the track on the other side.

The main track was torn up for a distance of about 500 feet and the side track was also blocked. However, the wreckage had been cleared away enough to allow the construction of the spur of the track around the wreck. The wrecked cars were loaded with merchandise and this was strewn all along the tracks for a considerable distance. The train was in charge of Conductor Benjamin Walters. It will be about three days before the wreckage is entirely cleared.

**HARRY DELANEY
HAS BEEN VINDICATED**

Says He Had No Difficulty in Disproving Charges Against Him

Lancaster, April 13.—Harry Delaney, the barber, who was indicted by the New Philadelphia grand jury for the alleged embezzlement of funds of the barbers' union as its secretary at that place two weeks ago and was arrested here and taken back on a warrant, has returned to Lancaster and says he was acquitted of the charge at the hearing and that he had no difficulty in proving his innocence. Mr. Delaney has resumed his position in the barber shop of Dan Crossen on North Columbia street. He was warmly greeted by his many friends here and heartily congratulated on the result of the hearing.

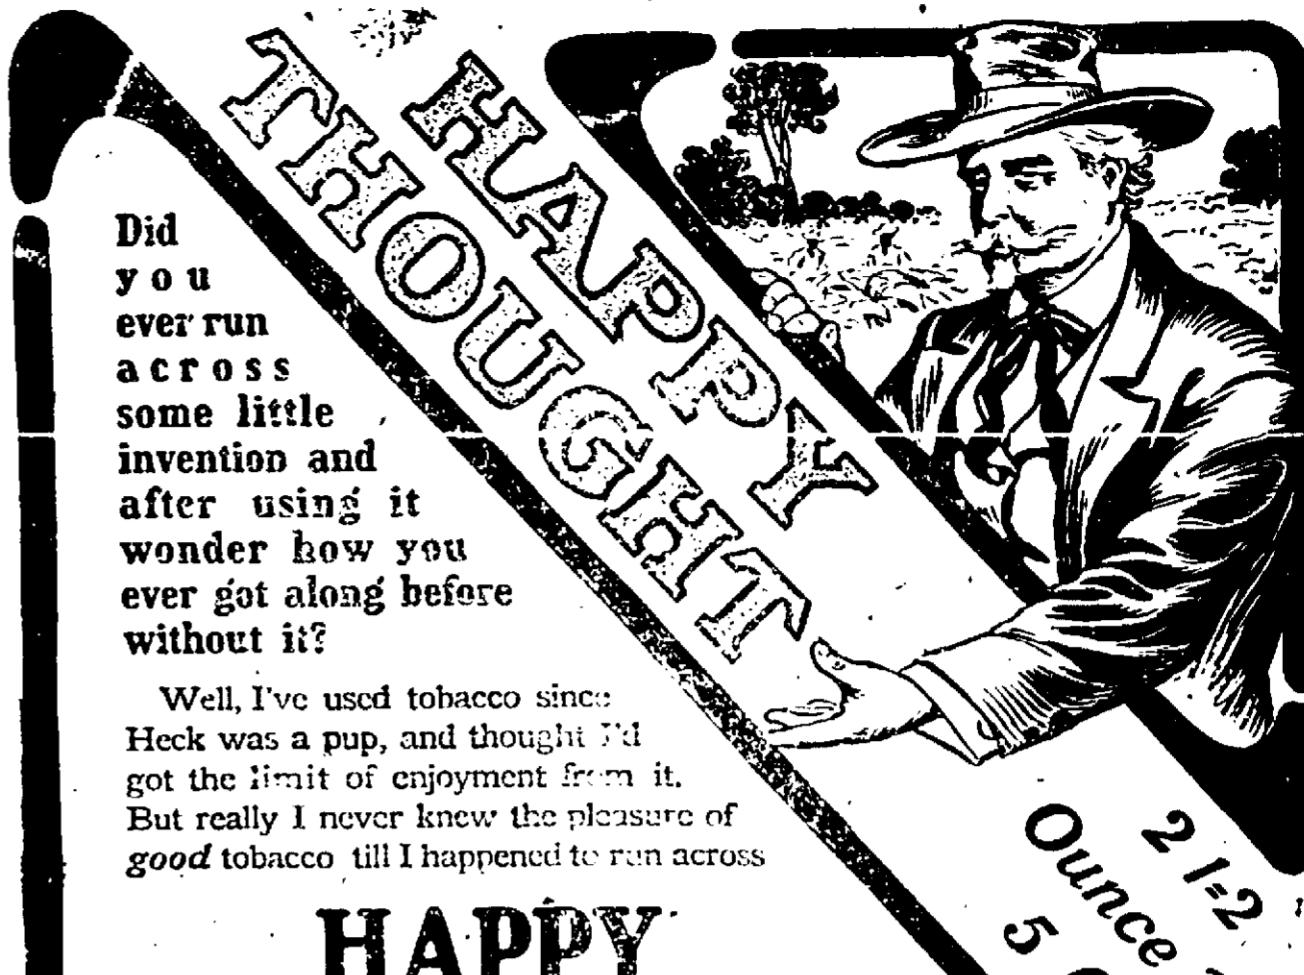

PATIENT HANGS HIMSELF

David Reed, Retired Farmer and Soldier from Sabina, Commits Suicide at Sanitarium.

Columbus, April 13.—With a rope improvised from strips torn from the sheets of his bed and thrown over the crossbar of the transom above his bed room door, David Reed, 62, retired farmer and soldier from Sabina, Clinton county, committed suicide by hanging before daylight yesterday morning at the McMillen sanitarium, Sheepshead.

Before retiring Wednesday night he exhibited a suicidal spirit, and at no time did he intimate that he intended taking his life. His attendants thought he was improving physically, a widow and a number of children surviving.
